Department of Human Physiology
Holy Cross College Agartala

Report on “Certificate Course on Laboratory Techniques”

Date: July, 2023.

The admission notice for 2nd batch of “Certificate Course on Laboratory Techniques” was circulated in the College website during the month of September 2022, after successful completion of the 1st batch of CCLT. Registration was closed after fulfilling all the seats on November 2022. The inaugural classes of this certificate course for 2nd batch started by the month of December, 2022. The Batch consist of students from different semesters of Zoology, Botany, Human Physiology and BSc General Departments of Holy Cross College. Total 36 numbers of students enrolled for the course during the session. The classes were held minimum 2 days in a week, including practical. All the classes are taken by the faculty members of department of Human Physiology, Holy Cross College, Agartala.

At the beginning of the course, the syllabus of the course was explained among the students and softcopy of the syllabus were distributed. The students were introduced to different laboratory equipment at the first practical class. The classes were simplified and elaborated by using projector and lab equipment regularly so that the students have minimum doubt. The theory module includes basic concept on different physiological systems of human body, blood, immune system, vitamins, puberty & adolescence, menstruation, lactation, type I and type II diabetes, arthritis, woman's health, and hygiene and how to take care of elderly people, etc. And the practical module includes microscopy, preparation of blood film and identification of blood cells, determination of blood group, BT, CT, Hb, TC, DC, blood pressure, usage of colorimeter, anthropometric measurements, qualitative estimation of urine sample, estimation of SGOT/SGPT, basics of fast aid and bacterial cell culture etc.

The examination of the course was announced just after completion of syllabus, and it was held on 27th May, 2023. It comprises of MCQ, practical and viva, which was a standard and effective format to evaluate the knowledge and skills of a student. This examination was necessary for the students enrolled in it to earn the course certificate, which was awarded as a proof. All the students cleared the examination with good grades and with full of enthusiasm.

The result of the 2nd batch CCLT course was declared on 30th June, 2023. Afterwards, certificates were distributed among the students. This course not only enhanced students' knowledge but also skills and communication. Theory class can give the ideal knowledge, but practical ones teach students to how to apply that knowledge, the errors we may face and ways to overcome those errors. Along with diagnostics applications of the different laboratory techniques, it also introduces one to different field of science and their practical purposes, so that one can identify a respective field to pursue. This course adds extra practical knowledge to the students of our college that will be beneficial to their future perspective.
