Assessment Report
Date: 20.12.2023

The Mentor-Mentee session was conducted for the students of 1st semester from 03.10.2023 to 20.12.2023, under the mentorship of Dr. Susmita Bhattacharjee and Dr. Chandra Shekhar Tripura. All the 25 students of the 1st semester were individually mentored by the mentors. The session started with brief introduction of the students, their family, their hobbies, likes and dislikes. The mentees were also asked about their likes and dislikes about the college, how much do they understand in the class, are they facing any problem in understanding what is taught in class. Besides this, they were also asked whether they are facing any problem in the college.

The session helped the mentors to understand their students properly. It also helped in finding the strength and weaknesses of each student. At the beginning of the semester, there were few students who were hesitant in talking, after the mentor-mentee session such students started opening up. The best outcome of the session was that, the mentors could find out the way to deal with each and every student of the class.

Assessment Report
Date: 22-01-2024

The Mentor-Mentee session was conducted for the students of 1st semester from November'2023 to January'2024, under the mentorship of Ms. Sukanya Sen.

The mentor provided one-on-one mentoring to each of the 06 students of first semester. A brief introduction of each student, their family, their interests, likes, and dislikes was given before the class began. Along with these questions, the mentees were also questioned about what they liked and didn't like about the college, how much they understood in class, and whether they had any trouble learning the material. In addition, they were asked if they were having any issues at the college.

The mentors' understanding of their students was improved by the session. It was also helpful in determining each student's areas of strength and weakness. Few students were reticent to speak at the start of the semester; but, following the mentor-mentee session, these students began to open up. The mentors' ability to figure out how to interact with each and every student in the class was the best result of the session.
