The Darjeeling Study Tour organized by the Department of Botany, Holy Cross College, Agartala was a transformative journey that immersed students in the fascinating world of plants and biodiversity. Through breathtaking landscapes and lush botanical wonders, the tour provided students with a unique and immersive learning experience. The primary purpose of the study tour was to explore the amazing biodiversity of Darjeeling. A total of 15 students guided by Dr. Dipanwita Chaudhuri, Dr. Somnath Kar, Dr. Debasree Lodh, & Dr. Sudipta Sinha embarked on fascinating nature walks and lush forest hikes to discover a wide variety of plant species.

Students were amazed by the beauty and richness of the surrounding flora and gained a deeper understanding of the complex ecosystems in which these botanical treasures reside of Happy Valley Tea Estates, Padmaja Naidu Himalayan Zoological Park, Japanese Temple and Peace Pagoda, Mount Kanchenjunga, Tiger Hill, Batasia loop park, Lloyd Botanic Garden. We have visited the Department of Botany and Department of Biotechnology in the University of North Bengal. Through hands-on activities, students collected plant samples, conducted experiments and documented their results. Through this experiential learning approach, they developed important skills in plant identification, data collection, and analysis.
