DEPARTMENT OF BOTANY

REPORT ON

Two-Days Workshop on Hands-on Training on Methods of Sampling Plant Communities & Techniques of Herbarium Specimen Preparation

Organized By

Department of Botany, Holy Cross College, Agartala

Date: 22nd & 23rd November, 2023

Introduction:

The Department of Botany, Holy Cross College, Agartala, organized a comprehensive two -days workshop on 22nd and 23rd of November 2023. The workshop was centred on providing participants with hands-on training in methods of sampling plant communities and techniques for herbarium specimen preparation. This initiative was undertaken to bridge the gap between theoretical learning and practical application in the field of botany, specifically focusing on plant taxonomy ecology and biodiversity.

Objectives:

The primary objectives of the workshop were:

- **Training in Sampling Techniques:** To equip participants with the skills necessary to conduct field sampling of plant communities using various standard methods.
- **Herbarium Specimen Preparation:** To impart knowledge on preparing, preserving and documenting plant specimens for herbarium collections.
- **Field and Lab Integration:** Integrating fieldwork with laboratory practices enhances the overall learning experience.
- **Skill Development:** To develop practical skills that can be applied in ecological research, biodiversity conservation and environmental studies.

Resource Person:

Mr. Biplab Banik, UGC-NET (Environmental Sciences), SLET (Environmental Sciences) Senior Research Scholar, Plant Taxonomy and Biodiversity Laboratory Department of Botany, Tripura University, Suryamaninagar-799022.

Accompanying Person:

Mr. Sani Das, Junior Research Fellow, Plant Taxonomy and Biodiversity Laboratory, Department of Botany, Tripura University, Suryamaninagar-799022.

Participants of the Workshop:

The workshop was attended by:

- ❖ **Students:** 123 students from the Department of Botany, Zoology, Human Physiology and B.Sc. General, Holy Cross College, Agartala attended the workshop.
- ❖ **Faculty Members:** Faculty members from the Department of Botany, including Dr. Debasree Lodh, Dr. Dipanwita Chaudhuri Sil, Dr. Somnath Kar, Dr. Sudipta Sinha also assisted in the practical sessions of the workshop.

DAY 1: 22ND NOVEMBER, 2024

Inaugural Session:

The first day of the workshop commenced at 11:00 AM with an introduction about the workshop by Dr. Dabasree Lodh, the Head of the Department of Botany. Following this, Dr. Moumita Dey, the Academic Coordinator of the college, extended a warm welcome and expressed gratitude to the resource person. Dr. Fr. Benny K. John, CSC, Principal, Holy Cross College Agartala, honoured the resource person. Dr. Somnath Kar provided an introductory speech about the esteemed resource person, after which Biplab Banik was invited to elaborate on the workshop and its significance. Dr. Dipanwita Chaudhuri Sil concluded the inaugural session with a vote of thanks, followed by the national anthem. Each student was equipped with a file containing a notebook and pen, along with a food coupon for the day.

Technical Session- I:

Session on Techniques of Herbarium Specimen Preparation.

Topics Covered:

- **Introduction to Herbaria:** An introduction to the importance of herbaria in Botanical research, taxonomy and conservation.
- **Specimen Collection:** Best practices for collecting plant specimens, including ethical considerations, avoiding over-collection and selecting representative specimens.
- **Pressing and Drying:** Techniques for pressing and drying plant specimens to preserve their morphological features for long-term storage.
- **Mounting and Labelling:** Methods for mounting specimens on herbarium sheets, including labelling with scientific names, collection details and habitat information.

Technical Session- II:

Hands on Session:

Participants collected plant specimens from the field, learning to select the appropriate parts of the plant for herbarium preparation. In the laboratory, they were trained in pressing and drying techniques using plant presses. Following the drying process, participants mounted the specimens on herbarium sheets and labelled them according to standard herbarium practices. This session provided participants with the skills needed to create herbarium specimens suitable for research and reference.

DAY 2: 23RD NOVEMBER, 2024

Technical Session- III:

Session on Methods of Sampling Plant Communities.

Topics Covered:

- ❖ **Importance of Plant Community Sampling:** Participants were introduced to the significance of plant community sampling in ecological studies, biodiversity assessments and conservation planning.
- ❖ **Sampling Methods:** An overview of various sampling techniques was provided.
- ❖ **Quadrat Sampling:** A method for estimating the abundance and distribution of plant species within a defined area.
- ❖ **Transect Sampling:** A technique used to study the distribution of plant species along a linear gradient.
- ❖ **Plot-less Sampling:** Methods such as point-quarter sampling, which do not require a defined plot but are useful in certain ecological contexts.
- ❖ **Fieldwork Preparation:** The session included a discussion on the selection of sampling sites, equipment needed and data recording methods.

Practical Activity:

Participants were divided into small groups and taken to the college's Botanical Garden for a practical session on quadrat and transect sampling. Each group conducted fieldwork under the guidance of faculty members, collecting data on plant species richness, density and frequency. This hands-on activity provided participants with real-world experience in ecological field sampling.

Technical Session- IV:

Hands on Session: Data Collection and Recording Techniques

Topics Covered:

- ❖ **Field Data Recording:** Instruction on how to accurately record field data, including species identification, environmental conditions and spatial distribution.
- ❖ **Use of Field Guides:** Training on the use of Botanical field guides and identification keys for accurate species identification.
- ❖ **Data Sheet Preparation:** Guidance on preparing standardized data sheets for fieldwork, ensuring consistency and reliability in data collection.

Practical Activity:

Participants practiced data recording during the field session, using the prepared data sheets. They also used field guides to identify plant species and recorded their observations systematically.

Presentation and Discussion:

Each group of participants was asked to prepare a brief presentation summarizing their fieldwork, herbarium preparation, and data analysis. Presentations were followed by a discussion session, where participants and faculty members provided feedback, shared insights, and discussed potential applications of the skills learned during the workshop.

Feedback and Conclusion:

The workshop concluded with a feedback session where participants expressed their experiences and learning outcomes. The feedback was overwhelmingly positive, with participants appreciating the hands-on approach and the opportunity to apply theoretical knowledge in practical settings. Many participants highlighted that the skills acquired during the workshop would be invaluable in their future research and academic pursuits.

The resource person, Mr. Biplab Banik, expressed his satisfaction with the active participation and enthusiasm shown by the attendees. He encouraged them to continue exploring the field of plant taxonomy and biodiversity and to apply the skills learned in their academic and professional careers. Certificates of resource person was distributed, and the workshop officially concluded with a vote of thanks by Dr. Dabasree Lodh, acknowledging the efforts of all involved in making the event a success.

Outcomes:

The key outcomes of the workshop included:

- **Skill Development:** Participants gained practical skills in plant community sampling and herbarium specimen preparation, enhancing their research capabilities in Botany and environmental sciences.
- **Field Experience:** The hands-on fieldwork provided participants with real-world experience in ecological sampling, data collection, and analysis.
- **Herbarium Knowledge:** Participants learned the importance and methods of creating herbarium specimens, contributing to Botanical research and biodiversity conservation.
- **Collaborative Learning:** The workshop fostered a collaborative learning environment, encouraging peer-to-peer learning and teamwork.

Acknowledgments:

The Department of Botany at Holy Cross College extends heartfelt thanks to Mr Biplab Banik for his expert guidance and dedication throughout the workshop. The department also acknowledges the support of the college administration, faculty members, and students, whose collective efforts ensured the success of the event.

Special thanks are also extended to the organizing committee, technical staff, and volunteers who worked behind the scenes to make the workshop a memorable and impactful learning experience.

Subject: Permission to Organize Two Days Workshop by the Department of Botany.

Respected Father.

I hope this letter finds you well. I am writing on behalf of the Department of Botany, Holy Cross College, Agartala, to request permission to organize two days workshop on "Hands-on Training on Methods of Sampling Plant Communities & Techniques of Herbarium Specimen Preparation" on 22nd and 23rd November, 2023.

The workshop aims to provide an educational platform for students interested in Botany, where they can learn and engage with innovative techniques related to herbarium. The Department of Botany is enthusiastic about facilitating an environment that fosters practical learning experiences, and this workshop aligns with our commitment to enhancing the academic pursuits of our students.

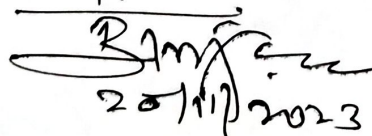

The workshop will be conducted by experts in the field who possess extensive knowledge and experience in herbarium techniques. It will include hands-on sessions, lectures, and interactive discussions, allowing participants to gain valuable insights and practical skills.

I, on behalf of the department of Botany kindly request your approval and support for the successful organization of this workshop. Your permission will greatly contribute to the academic growth and enrichment of our students in the field of Botany.

With regards.

Thanking you.

Sir,

Department of Botany is going to conduct Two Days Workshop on "Hands-on Training on Methods of Sampling Plant Communities & Techniques of Herbarium Specimen Preparation" at Department of Botany, Holy Cross College, Agartala on 22nd & 23rd November, 2023.

You are requested to attend the workshop as 'Resource Person'. Your valuable presence will help the students to gather the knowledge.

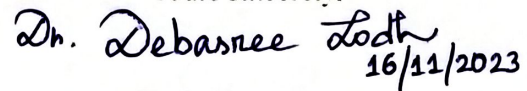

Thanking you.

Concept Note:

Understanding and documenting plant communities is crucial for ecological research, biodiversity conservation, and sustainable resource management. This hands-on training program aims to provide participants with practical skills in sampling plant communities and preparing herbarium specimens. The training will blend theoretical knowledge with practical field and lab exercises, ensuring a comprehensive learning experience. This training program aims to bridge the gap between theoretical knowledge and practical skills, empowering participants to contribute meaningfully to plant ecology and biodiversity research.

THEMATICS

#Day 1- Techniques of Herbarium Specimens Preparation

- To explore the purpose of botanical collections, including specimen identification, herbarium establishment, preservation for future studies, species description writing and genus/species research.
- To understand the significance of preparing herbarium specimens for scientific endeavours.
- Hands-on training to identify specimens up to the species level.
- Learning the steps involved in building and maintaining a herbarium for research and reference.

#Day 2- Methods of Sampling Plant Communities

- Understanding the fundamental methods for field sampling in ecological studies.
- To explore diverse techniques employed by ecologists for sampling ecological parameters.
- To focus on plant community sampling, emphasizing species composition, relative abundance, biomass, and relevance.
- Gaining insights into ecosystem and community structures through sampled data.
- Learn to estimate productivity, a functional measure, by analyzing biomass changes over time.

Outcome of the Workshop: By the end of the training, participants will have acquired practical skills in sampling plant communities and preparing herbarium specimens. They will also gain a deeper understanding of the ecological processes influencing plant distribution and diversity.

Two Days Workshop On

Hands-on Training on Methods of Sampling Plant Communities & Techniques of Herbarium Specimen Preparation

Date: 22nd and 23rd November, 2023

Organized By: Department of Botany, Holy Cross College, Agartala

Day	Sessions	Time	Details	
Day -1 (22.11.2023)	Inaugural Session	11:00 am to 11:05 am	Introduction about the workshop By- Dr. Debasree Lodh, HOD, Dept. of Botany, HCC	
		11:05 am to 11:10 am	Welcome address by Dr. Moumita Dey, Academic Coordinator, Holy Cross College, Agartala	
		11:10 am to 11:12 am	Felicitation of the Resource Person	
		11:12 am to 11:17 am	Introduction of the Resource Person By- Dr. Somnath Kar, Asst. HOD, Dept. of Botany, HCC	
		11:17 am to 11:25 am	Introductory Speech By- Biplab Banik, Resource Person	
		11:25 am to 11:30 am	Vote of Thanks By- Dr. Dipanwita Chaudhuri Sil, Asst. Prof. Dept. of Botany, HCC	
		National Anthem		
			11:30 am to 11:45 am	Break
		Technical Session 1	11:45 am to 12:20 pm	Session on Techniques of Herbarium Specimens Preparation
			12:20 pm to 1:00 pm	Break
	Technical Session 2	1:00 pm to 3:30 pm	Hands-on session	
Day -2 (23.11.2023)	Technical Session 3	10:40 am to 12:20 pm	Session on Methods of Sampling Plant Communities	
		12:20 pm to 1:00 pm	Break	
	Technical Session 4	1:00 pm to 3:00 pm	Hands-on session	
		3:00 pm to 3:30 pm	Valedictory Session

**Subject: Submission of Registration Fee (Rs. 12,300/-) collected from the Workshop
Organized by the Department of Botany.**

Respected Father.

I have the honour to inform you that the Department of Botany has organized Two Days Workshop On "Hands-on Training on Methods of Sampling Plant Communities & Techniques of Herbarium Specimen Preparation" on 22nd & 23rd November, 2023. In this workshop total 123 participants have registered and the registration fee was Rs. 100/- for the students.

Here, I am submitting the list of students (Total No. 123) and the collected money (Rs. 12,300/-) in cash.

With regards.

Thanking you.

Date: 04.12.2023

Yours faithfully.

Dr. Debasree Lodh
