**An 'Exposure Visit cum Workshop
on
Basics of Beekeeping'**

Resource person

Sri Kalipada Deb Nath

*In charge, Bee Keeping Section, Tripura Khadi Village and
Industries Commission*

Organized by

The Dept. of Zoology, Holy Cross College, Agartala

in collaboration with **College Biotech Club &**

Tripura Khadi Village and Industries Commission

Date: 25th September 2024.

Venue: Anandanagar Apiary

DEPARTMENT OF ZOOLOGY
HOLY CROSS COLLEGE, AGARTALA

Report on Exposure Visit cum Workshop on Basics of Beekeeping at Anandanagar Apiary Organized by Department of Zoology, Holy Cross College, Agartala on 25th September 2024 in collaboration with College Biotech Club sand Tripura Khadi Village and Industries Commission.

Bees play a crucial role as pollinators in ecosystem and agriculture. Thus they contribute to the reproduction of a wide variety of plants which supports biodiversity. Beekeeping can be a profitable venture, providing venture through sale of honey, bee wax and other bee related products. Keeping this in view, Department of Zoology of Holy Cross College, Agartala organized an exposure visit cum workshop on Basics of Beekeeping at Anandanagar Apiary for the students of 2nd Semester of Zoology Department on 25th September 2024 in collaboration with College Biotech Club sand Tripura Khadi and Village Industries Commission.

Thirty eight students of 2nd Semester of Departments of Zoology participated in the exposure visit cum workshop on Basics of Beekeeping along with Dr. Rumki Nath Sen, HoD., of the Department of Zoology, HCC and the Co PI of College Biotech Club Project, Dr. Parichita Ray Choudhury, PI. of College Biotech Club Project, Asst. Prof., Department of Zoology, and other faculty members, Dr. Shubhalaxmi Bhattacharjee and Piyashi Das. Mr. Kalipada Deb Nath, in charge of Bee keeping Section of Tripura Khadi and Village Industries Commission was present as the resource person of the workshop. He also helped the students in hands on training. The workshop was carried out in an apiary at Anandanagar, Agartala owned by a beekeeper, Mr. Bibhu Shil who rears honeybee for commercial purpose. On reaching the venue for the workshop, students assembled near the bee hive boxes. Mr. Deb Nath explained about different aspects of bee keeping including the colonial structure of bee hive, their social nature, nuptial flight, nectar sources etc. He also, informed the students about different species of honey bees available in Tripura and which the most preferred one for apiculture. Mr. Bibhu Shil shared practically the techniques of handling the bee hive boxes and also displayed the equipment used for extracting honey. The students freely interacted with the resource person and the bee farmer

regarding various aspects of bee keeping. After, the interactive session, both the villagers and the students were provided with refreshments.

The report is prepared by Dr. Parichita Ray Choudhury, Asst. Prof. of Zoology Department and Principal Investigator, College Biotech Club Project.
