## Department of Human Physiology Holy Cross College Agartala

### Report on "Certificate Course on Laboratory Techniques"

Date: July, 2024.

The announcement for the 3rd batch of the "Certificate Course on Laboratory Techniques" (CCLT) was posted on the college website on September 8, 2023. Registration concluded on November 25, 2023. The 3<sup>rd</sup> batch of the CCLT commenced their inaugural classes in December 2023. This group included 11 students from diverse departments such as Zoology, Botany, Human Physiology, BSc General, and BBA at Holy Cross College.

Classes took place at least twice weekly, incorporating practical sessions. Faculty members from the Department of Human Physiology conducted all the classes. At the beginning of the course, the syllabus was explained to the students, and soft copies were provided. The first practical session familiarized students with various laboratory equipment. To ensure students clearly understood the material, classes were simplified and expanded upon using projectors and lab equipment. The theory module covered fundamental concepts of various physiological systems in the human body, blood, women's health and hygiene, and elderly care, etc. The practical module included microscopy, preparation of blood films, Determination of blood group, BT & CT, hemoglobin (Hb), total count (TC), differential count (DC), and blood pressure, anthropometric measurements, qualitative estimation of urine samples, and bacterial cell culture, etc.

The course examination took place on June 20, 2024, featuring multiple-choice questions (MCQs), practical tests, and viva voce. All students successfully passed with good grades and high enthusiasm. The results were announced on June 25, 2024, followed by the distribution of certificates. The 2nd batch of the CCLT at Holy Cross College was a success, with all students showing a solid understanding of both theoretical and practical aspects of laboratory techniques. The course continues to offer valuable skills and knowledge to students from various academic backgrounds.
