## Internship under Tripura Human Rights Commission, 2024

A one week of Internship under Tripura Human Rights Commission was organized by the Department of Political Science. 23 students from across departments were selected for the programme. The students were divided in two groups. The first group did their internship from 1<sup>st</sup> to 6<sup>th</sup> May, 2024. While the second group did their internship from 13<sup>th</sup> May to 17<sup>th</sup> May, 2024.

At the very beginning The Tripura Human Rights Commission enlightened us with our rights what we possess as citizens of our country. During these 7 days of internship, we learned about the work frame of Tripura Human Rights Commission and how a case has been taken care of. We came across many cases like suo-moto case of health facility, complaints regarding land capturing and even rape case through which we analyzed all the work process how THRC acted on them.

Meeting with dignified personalities who worked for the public throughout their life was the most

enlightened period for us. The management of THRC was very impressive as we felt comfortable in every aspect. Our daily experience opened a new door of thinking regarding the case and right. After 4 days of learning, on the 5th day we presented our case studies in front of the members and chairperson of THRC and on the same day hour we appeared for an evaluation test. On the last day, we were given certificates and all the members of THRC blessed us for our better future.

A very huge gratitude to THRC who gave us the wonderful opportunity of internship and showed a new face of society and law and because of them we learnt a lot of social developing morals and duties.
