Minutes of the meeting

A Departmental meeting was held on 6th February, 2024 10:00 AM at G-02 Staff room to discuss the agendas given in the Notice. The agenda wise discussion of the meeting are as follows.

Discussion-1: After analysing the NEP-1st semester mathematics (major/minor) and statistics (minor) question papers, it was found that statistic minor paper setter did not follow the NEP rules/ guidelines. Also maximum of questions were proof based/ derivation typed in place of formula based numerical questions. As per observation these questions were a little bit tougher for Minor students who belong to non-mathematical background like Economics Computer Science respective to our college. This matter was also discussed with Exam Chair of HCC and he informed it to Tripura University.

Discussion-2: NEP 2nd Sem. Syllabus Distribution (Draft) – Even Semester 2024

| Name of the Faculty | Math(Major – 1) (Paper – 3) | Math(Major – 2) (Paper – 4) | Math(Minor) (Paper – 2) | Statistic (Minor) (Paper-2) |
|-------------------------------|--------------------------------|--------------------------------|----------------------------|--------------------------------|
| Dr. Susanta Banik | All 4 units | All 4 units | Unit- 2, 3, & 4 | Unit- 1 |
| Mr. Achintya Bhattacharjee | ----- | ----- | Unit-1 | Unit- 2, 3 & 4 |

Discussion – 3:

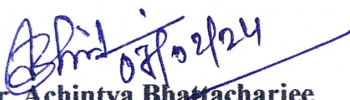

We have thought about a Departmental Education Tour tentatively on 16th February 2024 and we have thought about taking them into the Science City, Hapania, Agartala..

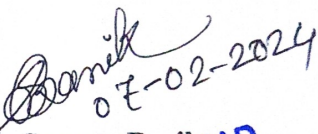

Discussion – 4: Department of Mathematics intend to propose moving the mathematics & statistics department to the new building (Andre Block) for the smooth conduct of classes and ease for students as these departments have some allied subjects in UG and PG (MBA) and teachers are taking various

subjects of the said courses. We have also shared our thoughts with the HODs of Computer Science and Economics as these departments students are also having inter-related subjects which are taught by Department of Business Administration, Mathematics and as well as Commerce teachers. Thus, it will be convenient for the faculty to teach the classes and for the students to complete all of their coursework if these departments are housed in the same building.

Discussion-5: To keep the students engaged some basic classes regarding the 2nd Semester will be taken in hybrid mode (offline/online). Also some assignment/ home-task will be given after every class. This has been already informed to the students.

Discussion-6: Since the Department is very new, so it has been planned to propose the College authority make advertisement of admission form the march 2024 onward itself so that more number of students can be aware of the new courses started by our college and there can be a sufficient increase in the number students taking admission in our department..

Mr. Achintya Bhattacharjee
Assistant Professor
Department of Maths & Statistics
