The Department of Botany was responsible for organising this event. The purpose of the programme was to provide information to students in the first, third, and fifth semesters about the many rules and regulations, facilities of the college library, and sources that allow access to a vast assortment of international and national journals, reports, books, and other materials. In addition, the programme was developed to educate students about the numerous e-resources that are readily available to enhance the teaching and learning processes. These e-resources include the Inlibnet facility as well as other e-resources that assist the learners in expanding their horizons.
